August Road Trip

Ron Fishell, Neil Jefferson, Bob Musser, Richard Cross, Karen Phillips

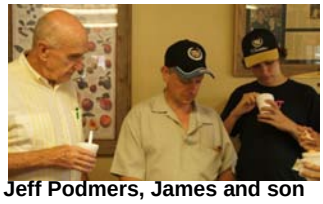

It was fun and relaxing when the members of the North Texas Region Cadillac & LaSalle club got together for a Saturday afternoon road trip. Nothing complicated, just meet at a convenient place, line up, and head on out to the highway.

This trip began in west Ft. Worth where club president Ruby Hubbard Musser collect a few cars and then stopped at the Mickey D's on the east side of Dallas for a final rendezvous for additional cars. After some social gathering and schmoozing, we line up our caravan and headed east on route 80 to Terrell, Texas. Our initial destination: Hams Orchard and BBQ, home to some of the best locally grown peaches in Texas.

35 Varieties of home-grown peaches.

While we were there buying peaches and other great fruit, we all had some fabulous peach ice cream.

——Our Convoy of Cadillacs——

After indulging in peach ice cream, barbeque sandwiches, and purchasing loads of fresh peaches, we set off to make some additional visits. A couple of us took in the NO. 1 British Flying Training School Museum, and then all of us then met at Flexible Foam Products, Inc. for a plant tour by Jim Warren, plant manager, our club vice president.

All of us, including Rubye were astonished by the volume of foam produced.

Afterwards we gathered for some fine evening dining at the Terrell Steak and Grill restaurant. A very pleasant and interesting day.

Minnie Bedrick and NTXCLC wins CLC Web Site Of Merit Award

Dear NTXCLC,

Congratulations! Your website has been designated and recognized as a CLC Web Site of Merit! Please feel free to display the attached icon on your website. Please keep up the good work!!

Dave Rubin,
IT VP Cadillac and LaSalle Club

The Web Site Excellence Award is presented each year to recognize the outstanding efforts of a Regional or Chapter Webmaster.

In view of the rapid migration toward the use of electronic media, many regions and chapters have set up web pages and message boards. As more of our members use the Internet as a communication and information tool, these Web site's have grown in popularity.

Inspired by the CLC Web site, many regions and chapters have expanded their local Web site's to include photos, stories, regional and chapter activities, and links to other areas of automotive interest. The Webmaster's job has become one of creativity, skill, imagination, and self-discipline. It is a vital and powerful link, not only to members of the CLC, but also to anyone surfing the web in search of automotive information. Web sites also act as powerful and indispensible servants in the attraction of new members, not only to our club, but also to the automotive hobby in general.

The award is presented at the Grand National for excellence during the previous calendar year.

In Memory of Allen Bills

Allen Bills, 76, of Wichita Falls, died on Monday, August 5, 2013.
Funeral services will be conducted at 10:00 a.m. on Friday, August 9, 2013, in the chapel of Owens & Brumley Funeral Home with Rev. Charlotte Arnold officiating. Interment will follow at Highland Cemetery Pavilion in Iowa Park. Arrangements are under the direction of Owens & Brumley Funeral Home of Wichita Falls.
A son of the late Mary Elizabeth (Adams) and Lester Marvin Bills, Allen was born on
April 27, 1937, in Wichita Falls. He worked as a carpenter. Allen was a long time member of Collectors Car Club, Cadillac & LaSalle Club, and Christian Motorcycle Association. He loved restoring classic cars and spending time on the lake.

Allen was also preceded in death by a brother, Buddy Bills and a granddaughter, Heidi. He is survived by his wife, Jackie Bills of Wichita Falls; daughters, Alynda Fender and husband, Rick of Mount Pleasant, TX, Candy Turlington and husband, Andy of Wichita Falls; son, La Ron Bills and wife, Barbie of Black Hawk, CO; step-sons, Jason Rice and wife, Jamie of Archer City, Shawn Rice and wife, Jenifer of Boliver, MO and Jeremy Rice and wife, Rebekah of Wichita Falls; brothers, Terry Bills of North Lake, TX and Arlan Bills of Lamarque, TX; 5 grandchildren; 9 step-grandchildren; 6 great-grandchildren.

Allen was a member of our club. Recently his ill health prevented him from driving from Wichita Falls. He had good intentions of coming to the 2013 Christmas party. He also worked at Pate very diligently in the past years.

So, You Think You Know Cadillacs

By W. G. Horst

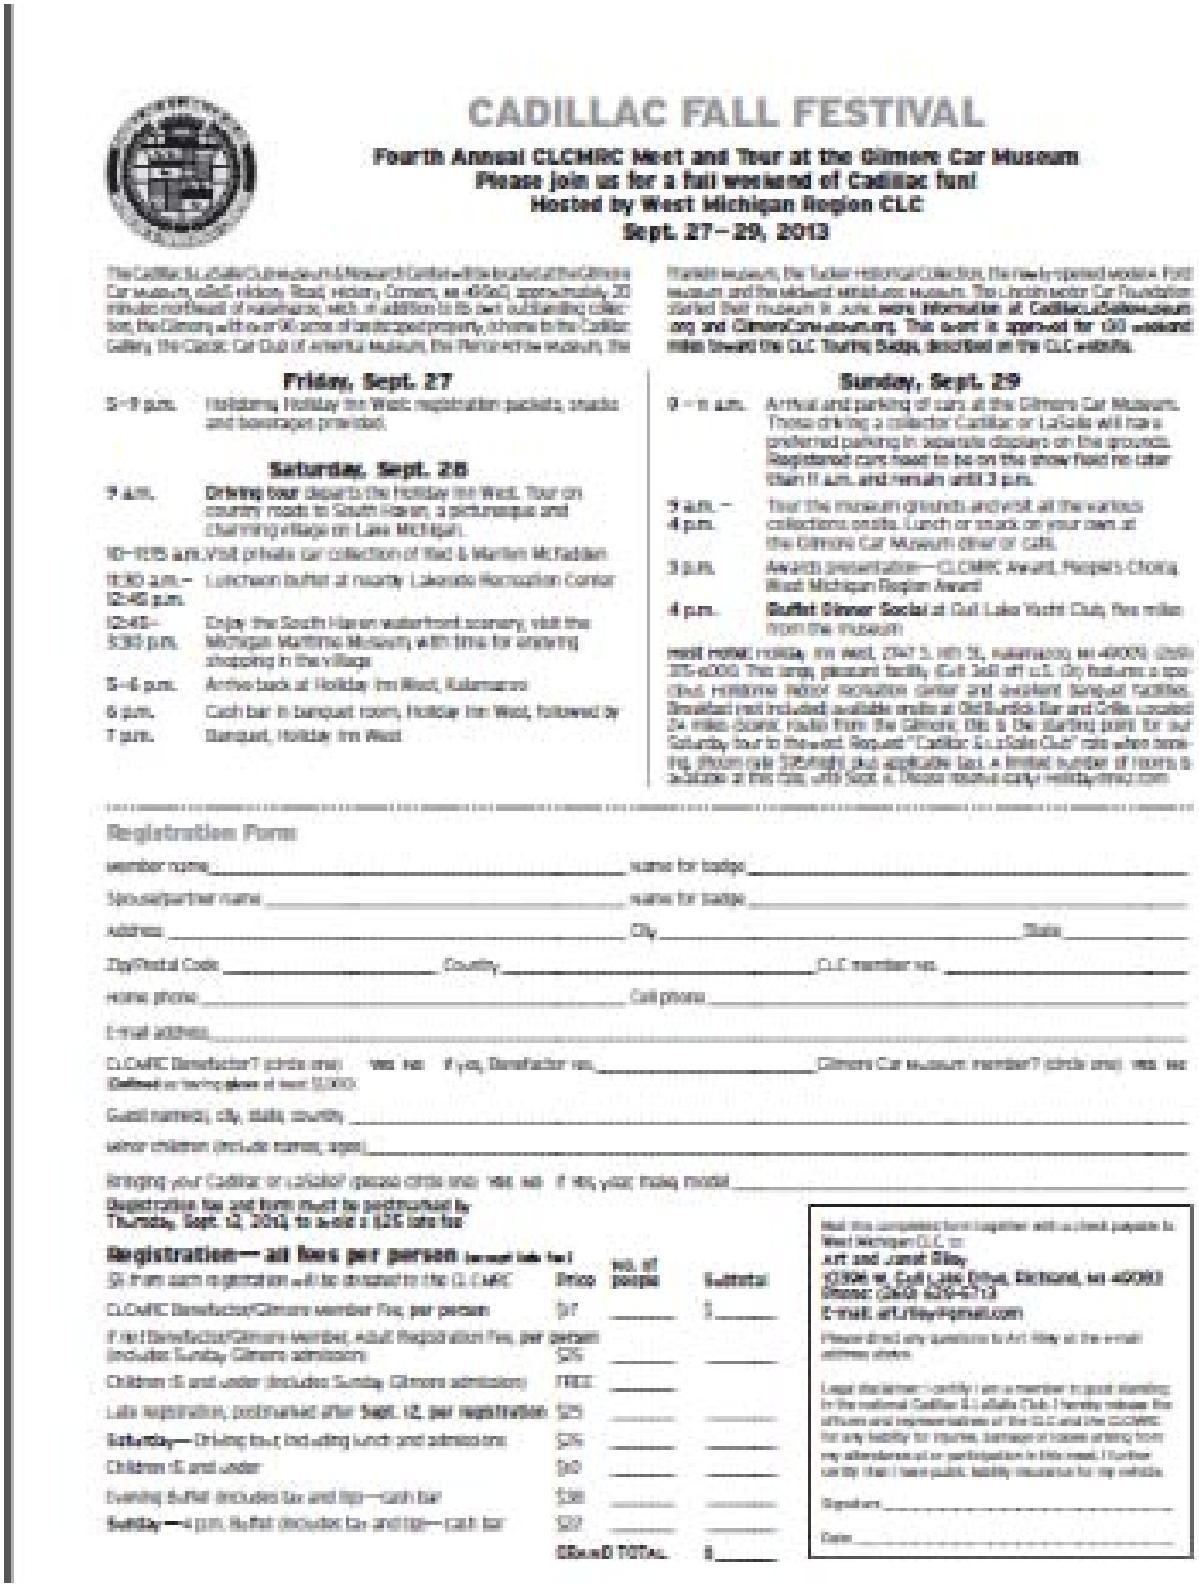

Q: In January 1930, Cadillac debuted it's V16 in a car named for a theatrical version of a 1920's film seen by Harley Earl while designing the body, What's that name?

Lenora Rolla Heritage Center Museum Visit

"The Test" - An exhibition about the Tuskegee Project and the Texas Airmen

Article by Rubye Musser & Photos by Lifer

On August 24th we had the once-in-lifetime opportunity to attend a reception honoring the servicemen connected with the flying Tusgegee Airmen " RED TAILS. " The NTXCLC had the privilege of being guests of the traveling exhibit at the Lenora Rolla Heritage Center Museum, Ft. Worth, Texas that runs through November. The history and pictures gave us a brief history of the struggles and final achievement of the TUSKEGEE Airmen that flew and displayed their talents finally in a vital assignment in some of the last battles of the war. The exhibit ---RED TAILS-----and "The TEST." We met one of the flight officers with the 477th Bombardment Group (B-25s), Dr. Robert T. McDaniel, who is a member of the Claude R. Platte D/FW Chapter of Tuskegee Airmen Inc. The exhibit depicting the history and speaks of the political and of the aerial battles that the first all black air wing endured during and after the war. " The Test," so the servicemen stated, was about their consistency and constant measure that they trained to until they finally managed to get an assignment that showed the world they could do it. We also had the honor of meeting Mrs. Erma Platte, wife of Captain Claude Platte, who signed his picture. Claude could not be there as he was admitted to the hospital today.

Outside in the small parking lot were member's Cadillacs for museum guests to look over. John Renfro drove his white '57 Eldorado Seville, Gerry Terranova drove in a '84 Seville, Neil Jefferson and Jim Hanson brought their Allantes, Bill Levy had his '06 STS, Tim Mathueus came in his '59 red Eldorado, Rubye brought a car-full in her '12 SRX, and Norm and Pauline Ofsted arrived in their 03 Seville SLS. Virginia Andrew, Pauline Johnston, Bob Musser and Beverly Terranova Also were in attendance for the NTXCLC.

We all enjoyed our Cadillac caravan to the Hams Peach Orchard in Terrell, Texas. You missed the delicious Peach Ice Cream if you did not show for the event. Yummy ice cream and peaches to carry home, plus seeing the train whiz by right in front of the parlor. A beautiful, light green, finned 1964 Eldorado convertible caught the eye of a lot of lookers (and one crazy red-neck, good-ole-boy pickup truck driver...) on highway 80. James Fine and son Allen from down in Hillsboro sported this beauty for its first trip with the club, even though James has been a member for several years.

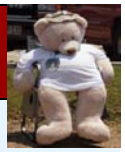

Another highlight of our afternoon in Terrell was the touring of the Flexible Foam Products, Inc. factory that our VP Jim Warren manages. You would be amazed at seeing a 200 foot, 9 inch roll wrapped on a look-alike Ferris wheel piece of huge machinery. WOW! It was something to see, all the different cuts and sizes of foam that was made there. You might even be sleeping on one now ---a Serta or Sealy, just one of the many items manufactured there. Plus they have a fleet of 60 trucks delivering the many different forms of foam they manufacture all over the country. The NTXCLC wishes to thank Jim and Dara Warren for offering this great opportunity to visit this factory.

Under the Editor's Bonnet

I love the car ads that say, "1960's car, all original, seats, paint, engine, run good, always garaged. In storage last 30 years. Low mileage. $xxx." So, what's wrong with this picture? Well, first of all, 50 years is a long time, and time, more than mileage, kills mechanical objects that rely on rubber and plastic, along with vinyl, leather, and foam. Rubber hardens over time, especially seals and tires, and hoses, and tubes. Rubber engine seals with no lubrication, no driving, get hard and brittle and you then have a leak. Other rubber components get brittle and crumble. Plastic, foam, and vinyl looses its elasticity and becomes brittle and cracks or crumbles. Leather also hardens and could crack. An engine that has not been exercised may have rust inside, it may corrode in the jackets, and seize over time. Gear sets will corrode and rust and refuse to mesh.

So, if I bought this dusty jewel it would cost me for tires, a brake job—brake fluid attracts water, many other parts rust when idle, lots of new hoses, tubing, seals, a radiator and cooling system flush, a fuel system overhaul, new battery, new wipers, and wait—there is more. The interior may need it all. So my bargain, low mileage, original car is going to be expensive.

Instead, how about a 60's car that has been restored lately, overhauled, driven, shown, and loved? A little more money, but more car and fewer (some) worries. A better value if done right.

Answer to quiz on page 3— The "Madam X", a custom coach designed by Earl and built by Fleetwood. The sedan featured a retractable landau top above the rear seat.
